

Back shell straight with internal metric thread

Item number: BSN32-M6B-AC

Packing unit: 1

Mechanical properties

Size:	32
Shell material:	Aluminum alloy
Surface treatment:	Epoxy-polyurethane
Type of surface:	varnished
Thickness of surface treatment:	13-16 μ
Surface colour:	black
Corrosion resistance (h):	500
Operation temperature:	-55°C - +125°C
Temperature shock:	-55°C - +125°C
Conductivity (M Ω):	non conductive
EMI:	No
Material sealing ring:	Silicone

Dimensional drawing

D1 (Ø):	52.0
L1 (mm):	55.0
N1:	1 7/8"-16 UNEF 2B
N2:	M40x1.5
T1 (mm):	13.0
